

APPOINTMENT OF A SUITABLY QUALIFIED SERVICE PROVIDER TO SUPPLY AND INSTALL A TWO (2) FOLDABLE INCLINED PLATFORM LIFT SUITABLE FOR COMMERCIAL USE IN A SMALL STAIRCASE AT THE MINING QUALIFICATIONS AUTHORITY.

SCOPE OF WORK:

- Supply and install two (2) commercial-grade foldable inclined platform lifts on separate 12 meters in length staircases.
- Install the lifts with minimal structural modification.
- Each lift must be designed for wheelchair users and suitable for commercial, indoor use.
- Ensure that the platform lifts are foldable, allowing full stair access when not in use.
- Provide all necessary electrical and safety connections, including battery backup systems.
- Conduct testing and commissioning of the lifts after installation.
- Provide onsite training on the safe usage of the lifts for designated personnel.
- Provide compliance certificates with applicable accessibility standards and safety regulations (e.g., SANS 10400, SANS 50081-40).
- Provide a maintenance and service plan for 12 months after installation.
